

ANTI STATIC BRUSH AP-AC0001

◆ **Products features:**

- 1、 Bar sharp, Horizontal type, passive carbon brush static eliminator.
- 2、 With excellent conductivity similar as conductor.
- 3、 Physical soft, will not scratch the contact material, can effectively and effectively eliminate static electricity.
- 4、 The brush has acid, alkali, oxidation resistance, high temperature, low temperature ect advantages;
- 5、 Long-term soaking in toluene, butanone and other dissolved without changing characteristics.
- 6、 No fear of fire, after fire will not change performance.
- 7、 No power, no electric shock, no harmful rays, No environment pollution..
- 8、 Brush is carbon fiber weaving type, not easy on fur shedding and contaminated by the discharged objects.
- 9、 The special bar-shaped slot, simple structure, small size, light weight, Movable bolts, easy installation and maintenance.

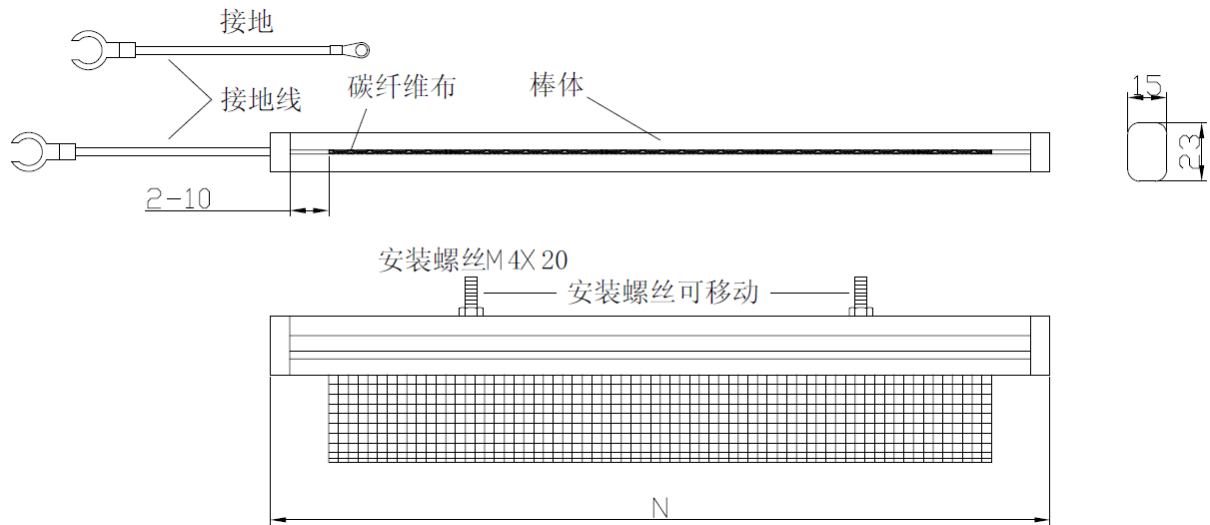

◆ **Application:**

可广泛应用于塑胶、薄膜、印刷、纺织等行业。 Widely used in plastic, film, printing and textile industries.

◆ **Specification:**

Model No.	AP-AC0001
Working temperature:	0°C - 50°C
Electroconductivity:	$\leq 1\Omega \cdot M$

Ground cable : 2.5m (customize as request)
